

Preface

1. Tile Selection

Qualities and Benefits of Ceramic Tiles 9

Versatile 10

Hardwearing/exceptional life cycle 10

Low maintenance 10

Easy cleaning 10

Hygienic 10

Fire and heat resistant 11

Chemical and stain resistance 11

Colour fast 11

Energy efficient 11

Anti-bacterial 11

Tile Types 12

Glazed tiles 13

Vitrification 13

Prime Types of Ceramic Tile Marketed in Australia. 14

Porous ceramic tiles (> 10%) 14

Semi porous ceramic tiles ($6\% < E_v \leq 10\%$) 14

Semi vitrified ceramic tiles ($3\% < E_v \leq 6\%$) 14

Vitrified ceramic tiles ($0.5\% < E_v \leq 3\%$) 15

Highly vitrified ceramic tiles ($E_v \leq 0.5\%$) 15

Slim porcelain tiles and panels 16

Thick porcelain paver tiles 16

Choosing the Right Tile 17

Benefits of Dealing with an ATC Member 19

Selecting Your Tiler 20

Tiling Checklist 22

During Installation 23

Post Installation 23

2. Tile Characteristics

Dimension and Appearance26

Permitted size variations (pressed edge & rectified edge)26

Shade and design variation29

Flatness32

Surface quality33

Critical lighting effect on tiles34

Mechanical Characteristics35

Breaking Strength35

Surface Mechanical Characteristics36

Abrasion Resistance36

Hardness (Scratch Resistance)37

Water Absorption39

Chemical Characteristics41

Resistance to Humidity and Temperature Change42

Fire Rating43

Green Credentials44

Understanding Highly Vitrified Porcelain Tiles45

Unglazed porcelain45

Unglazed polished porcelain46

Surface reflectivity on polished unglazed porcelain tiles46

Glazed porcelain47

Tile Edging (all ceramic tiles)49

Pressed edge and rectified edge49

3. Tile Installation

Overview51

3.1 Substrates51

Suitable Substrates for Wall Tiling51

Suitable Substrates for Floor Tiling53

Tiling Over Existing Tiles55

Sand and Cement Mortar over Concrete55

Adhesives, Grouts, Primers, Additives, Levellers
 and Membranes56

Decoupling, Uncoupling and Crack isolation underlays,
 membranes, and mats62

Tiling Tools and Equipment63

3.3 Surface Preparation and Applying Adhesive64

3.4 Wall Tiling66

CONTENTS continued

3.5 Floor Tiling69
 Laying Tiles in Mortar71
3.6 Slim Products72
3.7 Installation of Thin and Thick Panels/Slabs on Wall and Floors73
3.8 Mechanical Fixing75
3.9 Installation of Thick Porcelain Pavers78
3.10 Floor Tile Sound Transmission82
3.11 Underfloor Heating85
 Loose Lay Cable85
 Heated Cable Mat86
3.12 Mosaic (Ceramic, Stone, and Glass)87
 Adhesive.....87
 Setting mesh backed sheets.....88
 Setting paper or plastic film faced sheets89
 Cutting89
 Grouting91

4. Tiling in Pools

General Information93
Tiling in Pools (focusing on glass mosaic)95
The Theory of Tiling Pools97
Materials and Preparation99
 Material selection.....99
 Tools.....99
 Tarpaulins100
 Preparation100
Commencing Tiling.....103
Tiling at the Waterline105
 Walls110
 Bonding Corners.....111
A Seamless Finish Between Walls and Floors114
 Marking the Cutting Line118
Steps, Spills, Lights and Drains119
 Steps.....119
 Spillover120
 Lights120
 Pipes.....121
 Main drain121
 Master Tips122

5. Tile Joints, Grouting and Movement Joints

| | |
|---|-----|
| Grout Joints | 124 |
| Grout Joint Size | 124 |
| Grouting..... | 126 |
| Grout Additives..... | 127 |
| Hybrid / Pre-Mixed Ready To Use Grouts..... | 127 |
| Epoxy Grout..... | 128 |
| Cement Grout Troubleshooting | 129 |
| Movement Joints (Expansion Joints)..... | 131 |
| Caulking of movement joints | 132 |

6. Tile Lippage & Surface Flatness

| | |
|---|-----|
| Lipping..... | 137 |
| Lippage Control Systems..... | 138 |
| Laying Patterns | 140 |
| Timber Tiles / Plank Tiles..... | 140 |
| Rectangular Tiles (including 300 x 600 mm tiles)..... | 140 |

7. Gradient Falls in Wet Area Floors

| | |
|------------------------------|-----|
| Drainage | 142 |
| Residual Water..... | 143 |
| Flooding | 143 |
| Factors Affecting Falls..... | 143 |
| Floor Falls | 143 |

8. Waterproofing

| | |
|--|-----|
| Wet Areas | 147 |
| Shower Recesses..... | 147 |
| Tile Backer Boards..... | 150 |
| Waterproof Sheet Membrane | 150 |
| Shower Over Bath Enclosure..... | 151 |
| Other Wet Areas..... | 151 |
| Roofs Decks and Balconies | 152 |
| Expansion Joints and Cracks..... | 155 |
| Expansion Cracks | 155 |
| Movement Joints..... | 156 |
| Substrate Board / Sheet Joint Details..... | 157 |
