# Technical Committee Changes to the 2023-24 NTCA Reference Manual

The NTCA Technical Committee is comprised of leading experts in the tile, stone and allied products industry who continually work to update, revise and add new documents to the *NTCA Reference Manual*. The NTCA Technical Committee meetings are held twice a year and are open to the public. The NTCA encourages your attendance and participation in the important work of the Committee.

Changes to the *2023-24 NTCA Reference Manual* are made at the discretion of the NTCA Technical Committee members serving on the Committee. See the NTCA Technical Committee Roster on pages 2-3.

A special thank you to Becky Serbin, NTCA Education and Curriculum Director, for the countless hours she has spent and continues to spend going through some of the editorial changes in this edition.

## EDITORIAL UPDATES

Chapter 2 Substrates _____	21
Chapter 3 Membranes _____	83
Chapter 5 Thin-Bed Method Installation _____	111

## NEW

Handmade Tile Installation _____	240
Handmade Tile Installation Techniques and Tips _____	241
Mesh Mounted Mosaics in Wet Areas _____	222
Profiles _____	35
Profile Issues for Tile and Stone Installations _____	36
Pressed Cement Tile _____	236
Pressed Cement Tile Maintenance issues _____	239

# Table of Contents

Reference Manual and Specifications _____	1
Limitation on Use and Disclaimer _____	1
2023 NTCA Technical Committee Roster _____	2 - 3
Technical Committee Changes to the 2023-24 NTCA Reference Manual _____	5
<b>CHAPTER 1 GENERAL REQUIREMENTS _____</b>	<b>11</b>
General Statement on Moisture Emissions _____	14
<i>TCNA Handbook</i> Environmental Classifications _____	16
<i>Temporary Protection for Tiled Surfaces - Sample Letter for Contractor</i> _____	18
<b>CHAPTER 2 SUBSTRATES _____</b>	<b>21</b>
Proper Preparation and ANSI Requirements for Thin-Set Method Tile Installation _____	24
<i>Proper Preparation and ANSI Requirements for Thin-Set Method - Notes to the Tile Contractor – Sample Letter for Contractor</i> _____	25
Curing Compounds, Release Agents, and Sweeping Compounds _____	26
<i>Testing for Curing Compounds – Sample Letter for Contractor</i> _____	27
Interior Horizontal Installation of Tile Over Exterior Glue Plywood (EGP) Introduction _____	28
Interior Installation of Tile Over Exterior Glue Plywood (EGP) _____	29
Movement Joints _____	32
Movement Accommodation _____	33
<i>Movement Joints Notes to the Tile Contractor – Sample Letter for Contractor</i> _____	34
Profiles _____	35
Profile Issues for Tile & Stone Installations _____	36
Questionable/Unsuitable Substrates _____	38
Substrates/Applications that Require Design Consideration _____	40
Backer Board Definitions _____	41
Backer Boards _____	42
Tile and Stone Applications on Equivalent Gauge (EQ) Steel Framing _____	44
<i>Tile Over Steel Stud Assembly – Sample Letter for the Contractor</i> _____	45
General Statement on Deflection _____	46
Ceramic and Stone Tile Installation Over Engineered Wood Structural Floor Assemblies _____	47
Summary of Subfloor (Plywood or OSB) Design and Construction Guidelines for Tile Installation _____	48
Technical Background – Engineered Wood Structural Floor Assemblies _____	49
General Contractor’s Guide for Ceramic and Stone Tile Installations Over Wood Structural Floor Assemblies _____	52
Glossary of Terms for Engineered Wood Products _____	54
<i>Tile Over Wood Sub-Floors – Notes to the Tile Contractor – Sample Letter for Contractor</i> _____	55
Ceramic Tile and Stone Installations Over Concrete Substrates _____	56
Concrete Substrate Issues _____	58
Floor Flatness _____	62
Concrete Flatness and Level _____	64
<i>Floor Flatness Requirements – Request for Information – Sample Contractor Letter</i> _____	65

Division 3 versus Division 9 Floor Flatness Tolerances – ASCC Position Statement #6 \_\_\_\_\_ 66

NTCA White Paper – Wall-Flattening Products \_\_\_\_\_ 68

**UNDERLAYMENTS**

Introduction \_\_\_\_\_ 70

Poured-Gypsum Underlayments \_\_\_\_\_ 72

Tile Over Poured-Gypsum Underlayments and Leveling Materials Caution \_\_\_\_\_ 73

*Tile Over Poured-Gypsum Underlayments and Leveling Materials – Note to the Tile Contractor - Sample Letter for Contractor* \_\_\_\_ 73

Flowable Hydraulic Cement Underlayment (FHU)/Self-Leveling Underlayment (SLU) \_\_\_\_\_ 74

Loss of Underlayment Bond to Substrate \_\_\_\_\_ 76

Cracking \_\_\_\_\_ 77

*Cracks and Their Treatment – Sample Letter for the Tile Contractor* \_\_\_\_\_ 78

Glass Tile Description	230
Glass Tile	232
<i>Glass Tile – Sample Letter for the Tile Contractor</i>	234
Pressed Cement Tile	236
Pressed Cement Tile Maintenance Issues	239
Handmade Tile Installation	240
Handmade Tile Installation Tips and Tricks	241
Tile Not Manufactured to Industry Standards	242

## **CHAPTER 9 GROUTS** **245**

NTCA Problem-Solving Guide For Ceramic Tile Grout Installations:	
Introduction	248
Grout Selection Guide	250
Choosing Stain-Resistant Grout in Tile Specifications	254
Latex-Modified Portland Cement and Modified Epoxy Mortars and Grouts	255

Cementitious and Modified Cementitious Grouts:

Latex-Modified Grout	255
Efflorescence	258
Latex Migration	260
Crazing and/or Cracking of Grout Joints	261
Low Grout Joints	263
Pinholes in Grout Joints	264
Powdery or Soft Grout Joints	266
Rough-Textured Grout Joints	267
Inconsistent Grout Color	268

100% Solids Epoxies and Furan Grouts:

Grouting with 100% Solids Epoxy	272
<i>Grouting with 100% Solids Epoxy – Tile Contractor’s Sample Letter</i>	274
Acceptable Joints when Grouting with 100% Solids Epoxy	275

Low Grout Joints	276
Pinholes in Grout Joints	277
Soft Grout Joints	278
Inconsistent Grout Color	279

**CHAPTER 10 MAINTENANCE 281**

Mold – What It Is and What To Do About It	284
Recommendations for Exterior Tile Maintenance	285
Care and Maintenance	286
Care and Maintenance Sealers	287
Recommendation for Interior and Exterior Maintenance of Polished Porcelain Tiles	288
Maintenance of Textured/Unglazed Porcelain Tiles	288
<i>Use of Porcelain Tiles – Sample Letter</i>	289
Grout Haze on Textured/Unglazed Porcelain Tiles	290
Grout Haze on Polished Porcelain Tiles	290
Care and Maintenance Myths and Helpful Hints	291
Care and Maintenance Problem Solving	292
Care and Maintenance Glossary	294

**CHAPTER 11 PRECAUTIONS 295**

Coefficient of Friction and the DCOF AcuTest®	298
How Sealers, Treatments and Cleaning Products Can Alter the Dynamic of Coefficient of Friction (DCOF) in Floor Tile	299
Stone in Wet Areas	300
Tile Over Other Surfacing Materials – <i>TCNA Handbook</i> Method TR711 (Asbestos Fiber Warning)	301
Tile Over Other Surfaces	302
Spot Bonding	303
Use of Felt and Similar Products as Crack-Isolation Membrane	305
Optical Hazing Possibly Caused by Post-Fire Organic Coatings and/or Polishing Inconsistencies	306
Linear Drains Checklist	307
Stone, Ceramic, Glass Tile Inspection Checklist	308

**CHAPTER 12 GLOSSARY 309**
